## Weser Cycle Path "Discoverer"

### WESER CYCLE PATH - CLASSIC

The river Weser is one of the most important German rivers. Starting point of this tour is the idyllic half timbered town Hann. Münden – the place where rivers Werra and Fulda are forming the Weser. Already here in the small town you encounter the impressive Weser Renaissance with carefully reconstructed half timbered houses. From here you follow the meandering river through the "Weserbergland" (Weser mountains), having many hidden treasures. You travel through medieval half timbered towns as Höxter, Rinteln or Hameln. Visit the "Lying Baron Münchhausen" in Bodenwerder or see the original site of the tale of the "Rat Catcher from Hameln". Nienburg attracts with its old city, Verden with its dome and Bremen with its Schnoor district. All together a scenic and cultural very interesting journey which is due to the flat tour course easy to cycle.

Start of the bicycle tour on the Weser Rock, exactly where Werra and Fulda embrace each other. The centre of Bad Karlshafen with its lovely reconstructed baroque houses presents an interesting diversion to the otherwise usual half-timbered houses.

## *Bad Karlshafen/Beverungen – Holzminden/Bodenwerder*

approx. 35-55 km

A number of highlights can be encountered along the route: the town Fürstenberg with a renowned porcelain manufacture, the old hanseatic town Höxter with more than 160 mostly half timbered buildings under monuments-protection. DAY

## *Holzminden/ Bodenwerder – Hameln/Rinteln*

approx. 55 km

Many an idyllic village on the road invites you to stay. The little town Bodenwerder got certain fame for being the home of the so called "Lying Baron" of Münchhausen. The famous town of the "Rat Catcher from Hameln" has an intact old town with marvellous half-timbered houses and buildings in the typical style of the Weser Renaissance, dating back to the 16th and 17th century.

---

## *Hameln/Rinteln – Minden*

approx. 40-70 km and departure

Near Porta Westfalica the river breaks through the Wiehen- and Weser mountain ranges and reaches the Northern German lowlands. The small town Rinteln, originating from the 13th century still has many buildings from the Weser Renaissance. Bad Oeynhausen has the world biggest carbonic acid thermal spring. Minden once was a flourishing trading centre but was destroyed in great parts during World War II. It was reconstructed in an exemplary way.
